DETAILED ACTION

***Claim Rejections - 35 USC § 112***

1. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim is directed to a process for hydrogenating a benzenepolycarboxylic acid or a derivative. What is being "hydrogenated"? Is the claim referring to the hydrogenation of benzene ring or is the claim referring to the hydrogenation of carboxylate functional group? Applicants should include the phrase that the "hydrogenating a benzenepolycarboxylic acid to the corresponding cyclohexanepolycarboxylic acid". This is critical since the specification and examples are limited to the hydrogenation of the aromatic ring.

Claims 12-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for depending on the cancelled claims 1-10.

***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 24-26 provide for the use of cyclohexanedicarboxylic ester as plasticizer in plastics, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 24-26 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
